Review December

Well, December was packed with events. We're thrilled about everyone who joined us for the Game Night, Karaoke evening, or Open Mic, and hope that despite the exam period, you'll find time to join us again in January.

Newsflash: UBRM Forum

You've been waiting for a while, and I (Hansi) have often been asked about the forum. Now, the time has come for me to announce it: Forum 2.0. It runs on MS SharePoint, so you'll need your Office 365 account (which you can activate on BOKUonline) to log in. Unfortunately, uploading is a bit complicated for now, but I'm working on it. However, you can already download files and leave comments. I hope it meets your expectations. [Link 1](#)

OUR TASKS AS STUDENT REPRESENTATIVES

As there have been questions about our specific roles as StV, we want to give you a brief overview of our services and those provided by the Austrian Student Union (ÖH).

Consultation

We offer advice via email (stvubrm@oehboku.at), during our office hours (TüWi 2nd floor, see below for office hours), and in person by appointment. We can help with questions related to your studies, such as enrollment, withdrawal from studies, exams, bureaucratic matters, and general non-academic issues. We provide assistance, gather information, refer to other services, and help with issues involving professors.

Budget Management

We manage a budget on behalf of the ÖH and allocate funds in its best interest.

Projects

In addition to organizing our own events like the semester party, the EST (together with the ÖH), Bridge Festivals (with other StVs), or the Laubhaufentreffen, we also support you and others, such as the student union departments (Referate) with your projects.

Nominations

We nominate individuals for the Faculty Student Working Group (FachStuAG) responsible for revising curricula and for Habilitation (granting teaching authorization in specific subject areas).

Inter StV

We collaborate with other StVs, undertake joint projects, and submit joint proposals to the University Representation of the ÖH.

We collaborate with other important ÖH and university entities to provide comprehensive support.

BiPol

Department for Educational Policy

They specialize in interpreting the University Act and provide advice on study rights, obligations, etc.

Secretariat ÖH

Important for all matters related to ÖH administration.

Study Services

Responsible, among other things, for credit transfers. They can be bureaucratic at times but hold significant responsibilities. We sometimes face the same challenges in getting answers from them as you.

Feel free to reach out to us for any assistance or information you may need. Our goal is to support you throughout your academic journey.

Logo design competition

As our current logo has received mixed reviews and isn't immediately associated with UBRM by some, isn't it time to consider the idea that it might be time for something better. Something original yet simple, easily recognizable, with clear symbolism that unequivocally represents UBRM. And to ensure it truly belongs to and is embraced by UBRM, we invite you to be a part of its creation. We are announcing a design competition. Everyone is welcome to come up with a design and submit it to us via email (Subject: "UBRM Logo Competition"). It doesn't have to be perfect, there's no specific format requirement, and whether hand-drawn or computer-generated, the idea just needs to be discernible. The individual who proposes the chosen design will receive merchandise (featuring the new logo, of course) as a gift from us. Get those creative juices flowing, and let's together craft a logo that embodies the spirit of UBRM!

MORE INFORMATIONS HERE: [LINK 4](#)

In December, the EU Parliament and EU member states finally reached an agreement on the EU Supply Chain Law, ensuring its implementation. While the details may still change, this law establishes legal accountability for the supply chain, allowing for compensation claims even outside the EU.

HÖR MAL WER DIE WELT VERÄNDERT

is a podcast by students that explores sustainable and interdisciplinary topics (in German). Dive into our latest podcast episode, where Lukas Hammer, spokesperson for Climate Protection and Energy at the Austrian Greens, discusses the outcomes of the historic COP28. Learn why the resolution is deemed "historic" but also discover the loopholes in the final statement that cast doubt on a decisive exit from coal, oil, and gas. Send your feedback to: podcast@oehboku.at.

Question of the month

In addition to the Austrian environmental labels, you often encounter the PEFC or FSC certification on paper. How much trust you place in them is a matter of personal choice. However, they all provide a minimum level of assurance.

Answer December

Alongside the Austrian environmental labels, you might often come across the PEFC or FSC certification on paper. The extent to which you trust these certifications is a personal decision. However, they all provide a minimum level of assurance.
