

# Newsletter November (Peter's KALTER Sch<sup>\*\*\*</sup>)

**Content:** Review, Survey, Culture, Fachstu-AG, Event calendar, Question of the month, Office hours

## Review

- **Bridge Party:** Last Wednesday, things got heated at the speed dating event between UBRM and LapLarch. We hope you were able to make new acquaintances and expand our interdisciplinary connection. We are definitely looking forward to our next bridge festival! Who will it be with? Do you have any suggestions?
- **First regulars table:** As student representatives, we want to support and represent you in the best possible way. It helps us to know what you need. We have created a survey to find out more about this. Please take 5-10 minutes to let us know what you think. [Link1](#) in description

**Survey:** As student representatives, we want to support and represent you in the best possible way. It helps us to know what you need. We have created a survey to find out more about this. Please take 5-10 minutes to let us know what you think. [Link1](#)

## Culture

- Podcast: "Listen to who's changing the world" is a podcast by students. In the latest episode, "No Snow Show", we met ÖSV skier Julian Schütter. He is convinced that skiing must take responsibility for the environment. How does he deal with criticism and what steps need to be taken to make skiing more sustainable? You can find the podcast episode on Spotify here: [Link 2](#)
- 11 Dec. As every month, LBT invites you to Beer Monday in Muthgasse. If you feel like it, then drop by.
- 13.12 The next Brückenfest takes place. This time it combines UIW with the Queerref. Be curious

## Curious public holidays

- 05.12.2023 World Soil Day: Unfortunately, we still use over 10 ha per day in Austria.
- 15.12.2023 International Tea Day: When it's cold outside and your health is at risk, how about a warm cup of tea?
- 19.12.2023 Oatmeal muffin day: I've never tried this before. Maybe someone would like to bake some and hand them out at uni.
- 21.12.2023 World Orgasm Day, but if you don't have one, it's also the See-It-Positive-Day and the Crossword Puzzle Day. In any case, we wish you lots of fun.
- 30.12. Sodium bicarbonate day: For anyone who doesn't know what this is, it's the best time to start studying for your chemistry exam.

**Fachstu-AG:** As a working group of the Senate, the FachStuAG is made up of professors, mid-level faculty and students. Six members work together to develop the structure and composition of our degree programme. If you have always wanted to actively influence the degree programme, then write us an email and join the FachStuAG UBRM. As a bonus, you can look forward to a semester of tolerance.

## Event calendar

- **Games Evening:** If you like board games and have time on 4 December at 5 pm, then come to the games evening at TÜWI-Beisl. There will be plenty of games, you are also welcome to bring your own. You are also welcome to take someone with you.

- **Stammtisch:** The next regulars' table will take place on 14 December. I hope you will be there. The exact location will be announced.
- **Open Mic:** Just before Christmas, we're giving it another go: Would you like to perform in front of your fellow students at our 7th Open Mic? As a musician, poetry slamer or comedian, you can expect a pleasant atmosphere and a great atmosphere where you can be the star yourself! ✨🎤🎤 Feel free to register under the [link3](#) in the description and come to the TÜWI Beisl ✨ on 18 December at 7 pm You are also more than ❤️-welcome as a listener or fan of these 'talents'
- **Laubhaufen Punsch & Karaoke:** Flo (StV UBRM) and the cultural department can't be stopped and want to organise a Christmas karaoke on 12 December at 19:30. If your throat gets dry from all the singing, there will also be punch. If you want, you can dress up for Christmas, but of course that's not compulsory. We hope for a lively participation and look forward to seeing you there.

**Question of the month:** Christmas is coming and so is wrapping paper. Hopefully certified. What are the three biggest seals you can find on paper from sustainable forestry?

**Answer November:** About 6kg of beetroot produces about 1kg of sugar. One beet weighs about 700 g, which makes about 9 pieces of beet. Don't worry, the rest is not wasted. The molasses is used to make baker's yeast, alcohol and fertiliser and the beet pulp is used to make animal feed and fertiliser.

**Office hours November 2 - 3 pm:** 04.12.2023, 12.12.2023, 20.12.2023
